Item 1 Out of school sports clubs?	Rely on willing staff! Have tried external companies in the past with little success. There is cross country then there will be football and netball in the new year.
Item 2 Cars with their engines running while waiting both before and after school, causing fumes and pollutants at the level of children walking to and from school. As well as impacting residents.	Stationary vehicle idling - very problematic and we can continue to send reminder texts. Did have a meeting about joining the School Streets Initiative. Will continue to keep community updated and remind parents.
Item 3 Social media app for communication?	Looked at previously but felt it wasn't for our school systems. Also concerns re teachers' workload. Currently swapping Information Management Systems which could impact this also. Reminder to be sent regarding school website app as some parents aren't aware of this.
Item 4 Facebook page not private	The school Facebook page is a general page for those not already attending school therefore it needs to be an open page. There is the same level of 'publicness' to that of the school website. If parents wish to amend their child's permissions, then they need to contact the school office.

Next meeting: Monday March 4th 2:25pm

As ever, thank you to our parent representatives for giving their time.
