This week, Pre-School have been reading 'Handa's Surprise' and we have been finding out about fruits that grow in hot countries. We acted out the story using the Handa story sack, we completed fruit repeating patterns and we tasted mango, kiwi, pineapple and watermelon.

In Reception this week we have been learning about shadows. We had lots of fun making our own shadow puppets and playing with them in the playground.

Year 1 have been creating some model houses for The 3 Little Pigs this week as a part of our DT project. We had to make our houses strong and safe so the wolf could not get in. We showed excellent cooperation and came up with some brilliant designs.

This week, in Year 2 we have been learning about warm and cold colours. We looked at the different colours we could use and decided if they would be classed as warm or cold. We then went on to paint the same picture in the different colours to see which we preferred.

In Science, Year 3 have been learning about how the Earth has many different layers which are made up from rocks and soils. We recreated the layers by creating a dirt pudding. It was messy but we had lots of fun.

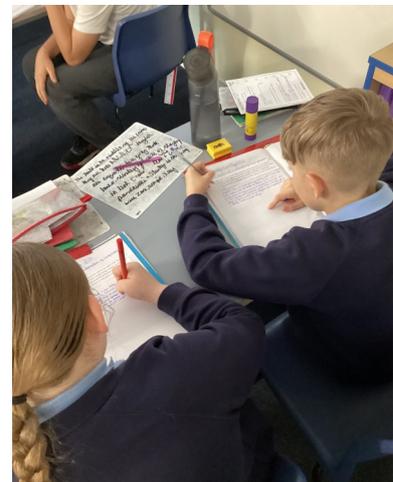

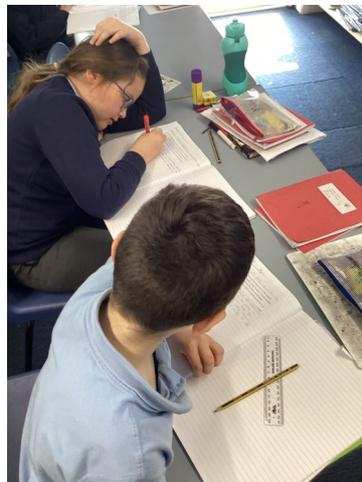

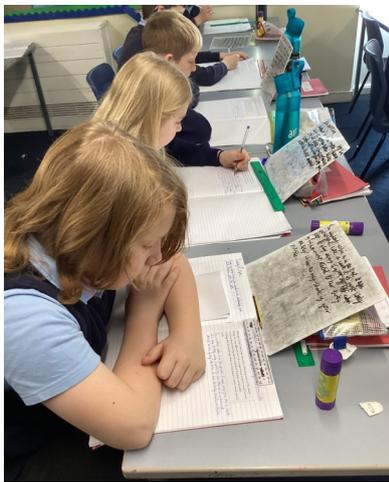

This half term, Year 4 have been learning about living things and their habitats in our Science lessons. In our lesson this week, we have been making observations of the invertebrates found in our school grounds. We have then drawn them and recorded their characteristics using scientific vocabulary.

For PE this half term, Year 5 have been doing athletics. This week, we practised sprinting and looking at what techniques we could use in order to make ourselves run faster. We then advanced this into sprinting and passing on a baton, ready for the relay races in sports day.

Year 6 began a new class novel this week, 'Holes'. Our book is set in Camp Green Lake, Texas and we have been working hard as a class on producing a setting description of the juvenile centre. We have discussed how we need to include expanded noun phrases, prepositions and figurative language to effectively describe a setting. We're very excited to read more of our new book and publish our descriptions.

Thank you so much to our school community for your support at our recent book fair. We can't wait to read our shiny, new books!
