Bede 125

Chad 87

Columba 110

This week in Pre-School we have been talking about families in stories and focusing on numbers to 3. We have been reading Goldilocks and The Three Bears, sorting porridge bowls and spoons by size order and counting cupcakes that we fed to the bears. We also had lots of sensory fun making sparkly pumpkins with playdough.

In gymnastics Reception have been learning about making different shapes. They really enjoyed using all the different equipment. We had lots of fun!

Year 1 have been trying to find the beat in music this week. We listened and appraised a song called 'shapes' and then tried to find the beat using the glockenspiels. We are now feeling more confident while using musical instruments.

In Computing this week, Year 2 continued to explore the benefits of using IT in the wider world. We focused on the use of IT in a shop and how devices such as barcodes, barcode scanner and a till can work together. We worked cooperatively on an activity, taking on the role of a customer, scanner, price finder and adder. It was interesting to see how the process worked.

This week in science, year 3 have been learning about how muscles work. We created our own moving arm model to demonstrate how the triceps and biceps work together to lift the lower arm towards the shoulder.

Year 4 have been comparing Sheffield and Halifax in our Geography unit this half term. This week we have been creating travel guides for Sheffield. We have used the learning from our books so far, and researched information from the 'Welcome to Sheffield' website to help us.

Year 5 have been learning about different communities in PSHCE. We have been thinking about the different communities that we are a part of and what benefit these can have for ourselves and greater society.

The class have also looked at what we can do to make someone feel welcome when they are new to a community.

Belonging	Belonging	Belonging	Belonging																																										
<p>What does it mean for a person to belong? It means that a person is part of, or a member of, a group.</p> <p>What groups can you belong to? People can belong to their families, schools, local communities, sports teams, organisations (such as Scouts or a theatre group) or religious groups.</p> <p>Where there is mutual understanding, there is a feeling of belonging.</p> <p>Make a list of all the different groups (or places) that you belong to. Also consider how belonging to each one makes you feel (e.g. confident, proud, respected, accepted, inspired). Try to identify a different feeling for each group and explain why you feel that way.</p> <table border="1"> <thead> <tr> <th>Groups (or Places) I Belong To</th> <th>The Feelings I Experience and Why</th> </tr> </thead> <tbody> <tr> <td>Home</td> <td>I feel safe and I love discussing it with my family.</td> </tr> <tr> <td>My School</td> <td>I feel happy because we get to go on a trip every year.</td> </tr> <tr> <td>My Friends</td> <td>I feel happy because I can play with them and I always feel included.</td> </tr> <tr> <td>My Family</td> <td>Because I love my family and I love being with them.</td> </tr> <tr> <td>Myself</td> <td>I love knowing because I know who I am and I get to know.</td> </tr> </tbody> </table> <p>Why do you think it is important for people to feel a sense of belonging? So that they are not sad but feel good and that they make good friends to belong to.</p>	Groups (or Places) I Belong To	The Feelings I Experience and Why	Home	I feel safe and I love discussing it with my family. In Science, Year 6 have been learning about light and the theory of colour. This week, we've learnt how shadows are created and how light bounces off an opaque object but some light bends around the object to create a shadow. The length and angle of the shadow all depends on the distance from the source of light. Year 6 really enjoyed creating their own Halloween shadow puppet shows!

Health and Wellbeing

This week Year 2 conducted an experiment to find out which exercise made our heart work hardest. To do this we measured our pulse while sitting. We then did five different exercises and measured our pulse after each one. We found out that running made our heart work the hardest and we think this exercise is the best to keep our bodies healthy. It made us feel better too!
