

Pre-School enjoyed playing with the parachute during our P.E. session. As we have been talking about the conditions seeds and plants need to grow, we made a grass caterpillar to look after and hopefully watch it grow a nice grassy coat.

In Reception this week we have been learning about shadows. We had lots of fun making our own shadow puppets and playing with them in the playground.

Year 1 have been thinking about how they can care for others in our RE lesson this week. We created a display thinking about those who care for us and how we can be kinder to others in our class.

This week Year 2 have been learning about the 12 Apostles in RE. We discussed the qualities they may have that made Jesus choose them. We also discussed how we might feel if we were chosen to help spread the word of God.

Year 3 have started their new DT project. This term we are going to be designing and making our own packaging for a healthy snack. To get us started, we have been looking at existing product packaging and evaluating them.

Year 4 had a great time at the Leeds City Museum. As well as exploring the museum and viewing lots of interesting things, we got to try on parts of the uniform that would have been worn by Roman soldiers. We also got to handle and look closely at real artefacts that survived from the Roman times.

Children from Year 4 have had the opportunity to complete their Level 1 Bikeability. We are very proud of their accomplishments. Well done!

Year 5 have had a fun week doing their Bikeability course. They have been learning how to ride safely and follow instructions, both in the playground and then advancing onto local roads.

In DT this week, Year 6 completed a senses experiment, we used all our senses to see if we could guess the mystery unknown ingredient. We spoke about why and how it tasted and whether it would be something we could use in our final product. Some great investigation work took place!
