

Welcome back everyone and a very warm welcome to the new families joining us this year! Celebration Worship will continue to be held at the start of school each Friday and parents/carers are always welcome to join us. I was thrilled to see how much work has been produced already this week when we gathered for afternoon tea. *Mrs Berry*

Welcome to all our new starters in pre-school who have settled in really well and have enjoyed exploring all the new toys and exciting areas.

Reception have had a great first week at school! They have had lots of fun, we especially enjoyed playing with the parachute in PE.

This week in Year 1 we have been learning that there is a superhero in all of us. We wrote about how we can use our superpowers of kindness and helping others to grow up to be real life superheroes like doctors, scientists and even recycling-truck drivers!

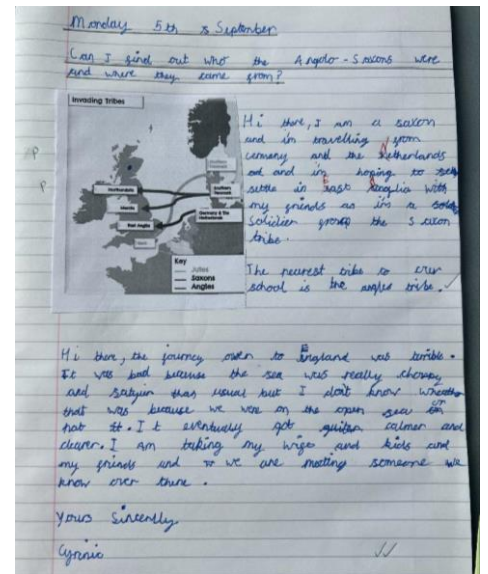

Year 2 have had a fantastic first week back. We started our Science topic with a fun activity to recap what we had learnt in Year 1. We discussed the different animal types, and we all had an animal. We had to discuss what type of animal we had and why we thought the animal went into each category. Well done Year 2, what a wonderful first week you all have had!

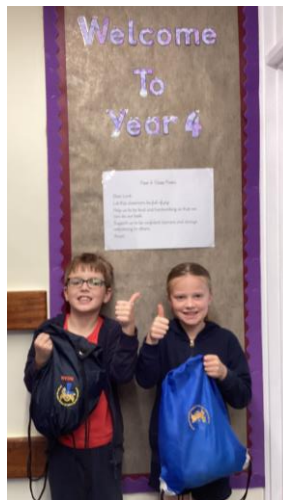

Year 3 have been working hard this week and had a fantastic PE lesson practising travelling around the hall. We challenged ourselves to travel using hopscotch and backwards in different ways.

Our first week in Year 5 has been very productive and students have had to really use their imaginations, from pretending to be an Anglo-Saxon to going on a visit to Jerusalem to visit the Western Wall.

Year 4 enjoyed going swimming this week. Although there were some nerves from some children, they behaved very well at the pool and made us proud. Swimming is such an important life skill and an important part of helping your child to stay safe in water. We are sure that the children will continue to work hard this year and develop their skills.

Year 6 this week started their class novel 'The Nowhere Emporium' Meah and Luca both created detailed character description plans of our main character Daniel Holmes.
