## From Classrooms To Boardrooms! Enterprise In Action

This week's newsletter is all about showcasing; **Enterprise** a vital part of preparing children for the future.

Enterprise education helps pupils develop creativity, problem-solving, teamwork, and financial awareness, all of which are essential life skills. Research shows that introducing enterprise concepts early can increase confidence and entrepreneurial thinking by up to **80% later in life.**

At St Michael's, enterprise resonates strongly with our school value of **co-operation**. Successful enterprise projects rely on pupils working together, sharing ideas, planning, and supporting one another to achieve a common goal. These experiences teach collaboration as much as innovation.

Throughout the year, our classes take part in a variety of enterprise activities, from designing and marketing products to running stalls and managing budgets. These experiences give children a taste of the real world and encourage them to think like innovators.

This week, we're excited to showcase some of these fantastic projects so you can see the creativity, ambition, and teamwork in action. We hope you enjoy seeing how our pupils are learning to turn ideas into reality!

Cooperation

## Cool Treats, Hot Plans!

Year 6 are putting their enterprise skills into action!

This Summer 1 term, they'll be running an **Ice Pop Sale** to raise money for their end-of-year celebrations before they leave St Michael's. This isn't just about selling treats; it's a hands-on lesson in business and teamwork.

From planning and budgeting to marketing and customer service, pupils will experience the key elements of enterprise in a fun and practical way. It's a brilliant example of how creativity and co-operation come together to make ideas happen!

# Festive Finds & Enterprise Minds

Year 2 and Year 3 are bringing Christmas cheer and entrepreneurial spirit to St Michael's with their **Christmas Enterprise Stall!**

Expect a wonderful selection of **handmade gifts crafted by our talented children and staff**, a **pre-loved Christmas jumper stall**, and now, **personalised glasses** for that extra special touch! By supporting the stall, you're not only picking up unique festive treasures, but you're also helping our young entrepreneurs achieve their goals. Year 3 are hoping to raise enough money to buy **Smart Sacks** with their share of the funds, making this project a fantastic example of enterprise in action.

**The stall will be open on Thursday 5th and Thursday 12th December straight after school so on't miss it! Come along, show your support, and take home something truly special.**

**Year 2 and 3**

**Christmas Enterprise Stall**

- biscuits
- bracelets
- wax melts
- earrings
- glasses
- teddies
- salt dough ornaments
- hot chocolate stirrers
- Christmas jumpers
- crochet Christmas decorations

## Bracelets & Brilliance: Year 4's Enterprise Adventure!

In Year 4, enterprise takes centre stage with a creative twist—**friendship bracelets!** Each summer term, our pupils become mini entrepreneurs, designing and crafting colourful bracelets to sell throughout the school.

This project isn't just about making something beautiful, it's about learning the essentials of enterprise: planning, pricing, marketing, and teamwork. The best part? Once the sales are complete, the children decide how to spend the money they've earned, giving them a real sense of ownership and achievement.

It's a fantastic way to combine creativity with business skills and a perfect example of how enterprise education helps our pupils shine!

## Reminders... A Busy Few Weeks Ahead

 Flu Immunisations  
 **11th December 2025**

 PTFA Christmas Wrap
